

PATENT

Claim Amendments:

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (Currently Amended) A jacket comprising:
a body portion that covers a portion of a wearer's torso;
first and second sleeves through which the arms of the wearer are fitted extending from the body portion, the first and second sleeves terminating at respective cuffs defining respective first and second openings through which the hands of the wearer extend;
a flap extending from an outer surface of the first sleeve and provided along the first sleeve, the flap being adapted to be positioned between open and closed positions, wherein in the closed position the flap constricts the first opening of the first sleeve; and
a pocket attached to one of the flap and the first sleeve and disposed between the flap and the first sleeve.
2. (Previously Presented) The jacket of claim 1, wherein the flap has an edge generally parallel to the cuff, the edge being shorter than a length along the cuff from a point at which the flap originates from the first sleeve to a fastening point.
3. (Previously Presented) The jacket of claim 1, further comprising a fastener for maintaining the flap in the closed position.
4. (Previously Presented) The jacket of claim 3, wherein the fastener may be engaged at various fastening points to adjust a degree of constriction of the first opening.
5. (Currently Amended) The jacket of claim 3, wherein the fastener has first and second portions respectively attached to the flap and the first sleeve.

PATENT

6. (Previously Presented) The jacket of claim 3, wherein the fastener is selected from the group consisting of snaps, hook and loop fasteners, zippers, tabs, and combinations thereof.

7. (Previously Presented) The jacket of claim 3, wherein the fastener is a hook and loop fastener.

8. (Canceled)

9. (Previously Presented) The jacket of claim 1, wherein the pocket is substantially covered by the flap.

10. (Canceled)

11. (Previously Presented) The jacket of claim 1, wherein the jacket is a winter sports jacket.

12. (Previously Presented) The jacket of claim 1, further comprising a second pocket.

13. (Previously Presented) The jacket of claim 12, wherein the second pocket is disposed between the flap and the first sleeve.

14. (Previously Presented) The jacket of claim 1, wherein the pocket is sized and shaped to receive at least one of the group selected from a card, ticket, trail map, season pass, keys, currency and combinations thereof.

15. (Previously Presented) The jacket of claim 14, wherein the pocket is size and shaped to receive a season pass.

16. (Previously Presented) The jacket of claim 1, wherein the pocket has an opening and wherein the opening includes at least one pocket fastener, the pocket fastener selected from the group consisting of snaps, hook and loop fasteners, zippers, tabs and combinations thereof.

PATENT

17. (Previously Presented) The jacket of claim 1, wherein the pocket comprises a transparent window.

18. (Currently Amended) A jacket comprising:

a body portion that covers a portion of a wearer's torso;

first and second sleeves through which the arms of the wearer are fitted extending from the body portion, the first and second sleeves having respective first and second openings;

a generally triangular flap having a side secured to an outer surface of said first sleeve generally parallel to a generally longitudinal axial direction of said first sleeve, a portion generally opposite said side being adapted to be fastened to said first sleeve; and

at least one pocket attached to one of said flap and said first sleeve and disposed between said flap and said first sleeve.

19. (Previously Presented) The jacket of claim 18, wherein said first opening is constricted when said portion is fastened to said first sleeve.

20. (Previously Presented) The jacket of claim 18, wherein said first opening is defined by a cuff of the first sleeve, said generally triangular flap having an unsecured edge extending generally parallel to said cuff.

21. (Previously Presented) The jacket of claim 18, wherein said generally triangular flap has a second side unsecured to said first sleeve, said second side having a generally arcuate edge.
